CARRER OBJECTIVE:

Aspiring Frontend Developer with strong skills in HTML, CSS. Currently expanding my expertise in Python, Django, and SQL to become a well-rounded Full Stack Developer.

SKILLS:

- **Programming:** Python
- **Frontend:** Html, Css, Javascript, Bootstrap
- **Database:** Sql
- **Tools:** GitHub, Visual Studio, Ms-office
- **Framework:** Django (learning)
- **Others:** Video Editing, Image Editing

PROJECT:

- **TRAVEL RECOMMENDATION SYSTEM** 🚩 **TEAM LEAD** **Jan2024 - Apr2024**

A **Travel Recommendation System** is a Web Application Designed to help users discover Personalized Travel Destinations, Activities, and Experiences based on their Preferences, Past travels, and Interests. The system utilizes data-driven algorithms to suggest travel options that align with the user's unique profile.

- **CRICKET LIVE SCORE APPLICATION** 🚩 **TEAM LEAD** **Jul2024 - Nov2024**

Developed a **Cricket Application** for fans to stay updated with live match scores, player statistics, and team rankings. The platform also provides detailed match analyses, enhancing the user experience for cricket enthusiasts. Integrated real-time data and ensured seamless performance across devices.

- **Designed and implemented** a responsive web application using HTML, CSS, and Bootstrap, developed a robust backend framework with Django, streamlining the data management with SQL databases.
